-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --  
**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**Status**

- 1) Responsive to communication(s) filed on 24 May 2004.
- 2a) This action is FINAL.                    2b) This action is non-final.
- 3) Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

## DETAILED ACTION

### *Claim Objections*

1. Claims 19-22 are objected to because of the following informalities: In claim 19, line 5 "the curtain" lacks a positive antecedent basis. Appropriate correction is required.

### *Claim Rejections - 35 USC § 102*

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 11, 15 and 17-18 are rejected under 35 U.S.C. 102(b) as being anticipated by Kozial. Kozial discloses an "curtain holding" apparatus or vertical structure 2 (**note the preceding term "curtain-holding" is merely intended use and the apparatus of Kazail is capable of holding a curtain and thus meets the claimed limitation of a curtain-holding apparatus**). including additional structure including a luminescent or fluorescent agent (see column 4, lines 25-29) in sufficient concentration to provide a visible light emission in the event of lighting failure. The bars extend in a horizontal and vertical direction to the vertical structure 2.

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

Art Unit: 2875

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

5. Claims 11, 15 and 17-18 are rejected under 35 U.S.C. 102(b) as being anticipated by (Glatz et al '017, Tassey et al '266 or Pitman '909). (Glatz et al '017, Tassey et al '266 or Pitman '909) discloses a “curtain holding” apparatus (**note the preceding term “curtain-holding” is merely intended use and the apparatus of (Glatz et al '017, Tassey et al '266 or Pitman '909). is capable of holding a curtain and thus meets the claimed limitation of a curtain-holding apparatus**) including an additional structure including a luminescent or fluorescent agent in sufficient concentration to provide a visible light emission in the event of lighting failure.

6. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 11 and 16 are rejected under 35 U.S.C. 102(b) as being anticipated by Dumas. Dumas discloses a “curtain holding” apparatus (**note the preceding term “curtain-holding” is merely intended use and the apparatus of Dumas is capable of holding a curtain and thus meets the claimed limitation of a curtain-holding apparatus**) including an additional disc shaped member member 15 including a

luminescent or fluorescent agent in sufficient concentration to provide a visible light emission in the event of lighting failure.

***Allowable Subject Matter***

7. Claims 1-10 and 19-22 are allowed.
8. Claims 12-14 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

***Conclusion***

9. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Voland, Daniel, Pan, Deutsch et al, Wu and Wojski disclose illuminated curtain assemblies which are similar to applicant's invention.
